Tell us...

where are you from?

*what excited you when you first
heard about the CoP on Citizen
Engagement in Evidence-
informed Decision-Making?*

CoP CE-EIDM I Why is it important?

CoP CE-EIDM I Objectives

Testing and improving existing resources and guides to ensure they are useful for the community of practitioners

Facilitating understanding and use of mini-publics specifically, and CE and EIDM generally

Providing peer support, informal exchange, sharing and learning from experience

Creating visibility of the work in CE and EIDM

Stimulating debate and generate a better understanding of practitioners' needs for additional resources and/or support

Agenda for today's meeting

Items

1

Capacity building activity

Discussion of the vision statement
Formation of the working groups

3

Closing of the meeting

2nd virtual meeting

Capacity building activity

Evidence-informed policy-making as an inclusive endeavour: state of the art and trending debates'

Sandy Oliver, Co-Director, Evidence for Policy & Practice Information Centre, University College London (UCL) Social Research Institute

Developing the CoP

Group discussion I Developing a vision for the CoP

A vision statement:

- describes a hope for the future;
- identifies a problem you want to solve;
- defines big picture changes you want to make; and
- unites people in beliefs and values.

Instructions

- You will be divided into small groups and asked to answer the following questions by using Google slides
 - *What would an ideal CoP CE-EIDM look like for us?*
 - *What specific needs or goals should this community serve?*
 - *What values do we want our community to be rooted in (e.g., trust, collaboration, innovation)?*
 - *What other aspects would you like us to consider when shaping the CoP?*
- After 25 mins, you will be brought back together

Working Groups

CoP Charter

Describes what the community is about and how it works. It includes developing the purpose of the community, deciding how membership works (open/closed) and what the operating model will be (e.g., forms of engagement and communication, regularity).

CoP Resource Hub

Focuses on the creation of a centralized online resource hub, which will serve as a repository for materials, tools, and best practices, offering easy access to resources that support capacity-building efforts.

CoP Workplan

Develops a workplan that outlines key priorities, activities, timelines, and resource needs. The workplan will serve as a roadmap, aligning members on shared objectives and expected outcomes, ensuring efficient use of resources, and setting clear milestones to guide the CoP's efforts.

CoP M&E Framework

Designs a comprehensive M&E framework that enables the CoP to track progress, demonstrate impact and refine the workplan to ensure that interventions meet intended outcomes.

Working Groups | Next steps

- ❖ The expected time commitment for participation in a working group is 2 hours per month (1h for the working group meeting and 1h for preparatory and follow-up work)
- ❖ The first meeting of each working group will be scheduled by the organizing team between the first and second virtual CoP meetings.
- ❖ The first meeting serves, in part, to address organizational aspects such as assigning group roles and setting the day and time for future meetings.
- ❖ Each working group will provide an update on their progress at each CoP meeting.

Closing of the meeting

2nd Virtual meeting of the CoP CE-EIDM I Proposed agenda
